Message from The
Chairman
Builders Association Of India
Mumbai Centre

I am pleased to know that Hyve India is organizing the 20th Edition of Roof India, the world's largest roofing show, during April 27 -29, 2023 at Bombay Exhibition Centre, Mumbai, India

The prevailing mood in the roofing industry is sober and the continued growth is good news for the sector. With growing Indian economy; the rising disposable income of consumer, growth of FMCG market, etc.

I am sure this prestigious event will lead to exchange of thoughts and ideas, which would further help in the growth of Indian roofing & construction industry to compete in the international market.

Most executors of infrastructure development programmers and builders of real estate, i.e. the construction companies in India, are under the umbrella of the over-eight-decades-old Builders' Association of India (BAI). BAI is the only all India apex representative body of civil engineering construction companies.

I convey my best wishes to all the supporting associations, participants, delegates and organizers for the success of the event.

(Harshad Shah)

Message from The
President
Indian Association of
Structural Engineers

I am happy to note that Hyve India Private Limited in association with other trade associations is organizing the 20th Edition of Roof India, Asia's Largest Roofing & Allied Products Event scheduled to be held during April 27 -29, 2023 at Bombay Exhibition Centre, Mumbai, India. I am sure such type of focused B2B events are helpful to link the roofing and allied industries together and provide a common business platform, to showcase the new technologies, machinery, products and services. I am sure that exhibitors and trade visitors to this event will be immensely benefitted from this opportunity. I wish the Roof India 2023 event a grand success.

Best wishes,

(Manoj Kumar Mittal)

Message from The
President
Architects, Engineers &
Surveyors Association

I am pleased to know that Hyve India is organizing the 20th Edition of Roof India, International Exhibition & Conference on the Roofing & Flooring industry during April 27 -29, 2023 at Bombay Exhibition Centre, Mumbai, India along with every major construction trade association. Welcoming all the delegates, Exhibitors and supporters to this wonderful Exhibition. The Roof India Exhibition is going to open up new ideas and avenues for the construction industry in leaps and bounds.

It's going to give us the opportunity to explore the materials that form the roof to the floor as well. As the President of AESA, I wish to extend my warmest regards to the Hyve India Pvt Ltd. and Roof India Exhibition for conducting such an informatic exhibition and wish them all the success for their future events, as well.

The Architects, Engineers & Surveyors Association, Pune, is a unique body constituted 50 years ago in 1970, as a result of a growing need for all professionals in the construction industry to come together and join hands for the betterment of our City.

I offer my Compliments to Industry leaders, participants and supporting organizations and trade media for their cooperation to the organizers of Roof India. AESA is proud to be associated with the Event and is sure of the success of it.

A handwritten signature in blue ink, appearing to read "Parag Lakade".

Message

Message from The
President
Indian Merchants' Chamber

I am happy to know that Hyve India Private Limited is organizing the Roof India 2023, world's largest roofing show during April 27 -29, 2023 at Bombay Exhibition Centre, Mumbai, , India This leading Trade Event will provide a business platform for the industry professionals and will go a long way to serve the need of the Indian roofing Industry.

In organizing these kinds of specialized events would certainly provide a useful platform for the participants to enhance their grasp of the latest know-how in the Industry.

IMC Chamber of Commerce and Industry has a rich legacy of over a century of existence. It was founded on September 07, 1907 by few Indian Merchants, who came together to establish a Swadeshi institution to fight for the rights of the swadeshi businesses. The Chamber exclusively served the interests of Indian business community and also took part in several key political movement pre-independence

I offer my compliments to Industry leaders, participants, supporting organizations and trade media involved in Roof India 2023.

(Anant Singhania)

Message from The
General Manager
Hyve India

It is a matter of immense pride and joy for me to welcome all of you to the 20th edition of Roof India exhibition, which will be hosted from 27-29 April 2023 at the Bombay Exhibition Centre in Mumbai, India. Touted as Asia's largest exhibition on Roofing and Allied Industries, Roof India is co-located with a concurrent event - Floor India 2023 and aims to bring together some of the biggest names in Roofing & Flooring Industries.

Underlining Hyve India's singular vision to create unmissable events worldwide, Roof India has seen unprecedented success in the last two decades with participation from 20+ countries spanning 4 continents and fulfilling the promise of a truly international experience.

The infrastructure boom has contributed to the meteoric rise of India's Roofing and Industrial Flooring industries. India plans on spending over US\$1.4 trillion on the development of various infrastructural projects with Roofing market expected to grow at an impressive CAGR of 7%.

Roof India 2023 will bring together manufacturers, suppliers, buyers, and importers among other stakeholders from the fraternity to connect and network with each other and form lasting business relationships for lucrative business deals.

On behalf of Hyve India, I would like to thank all the exhibitors, speakers, delegates, sponsors, associations, and visitors for their contribution in making this event a success.

A blue ink handwritten signature that reads "Gaurav Sood".

(Gaurav Sood)

Message

Message from The
Portfolio Director
Hyve India

It is again a great pleasure to welcome the industry at 20th edition of Roof India and Floor India exhibitions scheduled during 27-29 April 2023 at Mumbai.

Bolstered by the wide range of construction projects in residential and commercial sectors, the future of India's Roofing industry is looking up. While the Bituminous Roofing, known for its longevity and exceptional waterproofing is currently ruling the roost, in-roads in the demand and development of metal roofing, tiles & shingles and polycarbonate roofing have set the stage for the incredible growth in the Roofing and Allied industries.

Keeping in mind the large-scale expansion of the Roofing industry over the years, Roof India 2023 is designed to showcase the latest trends and technologies by leading exhibitors across the world. The event may be helpful for leading brands and market leaders to network, exchange ideas and strike lucrative business deals.

I would like to extend my heartfelt gratitude to all the supporting Trade Associations, Media Partners from world over..

My best wishes to everyone for a fruitful participation

A handwritten signature in black ink that reads "Sahni".

(Gagan Sahni)

About Roof India 2023

The global construction industry was valued at \$12.74 Trillion in 2022 and secured a whopping 6% of the global GDP. A considerable share in infrastructure is taken by the Roofing segment, valued at \$120.34 Billion and only growing in numbers, owing to the popularity of a variety of roofing alternatives, more suited to all-weather conditions while aiming for durability and heat resistance. India's Roofing Industry, aided by the infrastructure boom, is growing at a CAGR of 7% and is expected to cross \$9.7 Billion by 2027.

About Roof India

Keeping this in mind, Roof India Exhibition, Asia's Largest Roofing & Allied Products Event is held every year to provide the ideal platform for the building construction and infrastructure industry fraternity to converge, network and strike lucrative business deals and establish business partnerships & joint ventures.

ROOF INDIA, India's only focused Roofing and Allied Products event showcasing latest in products, services & trends from Roofing Systems, Architectural Cladding, Pre-engineered/ Factory Buildings, Metal Building Systems, Structural Steel, Light Steel Framing Technology, Roll Forming Machinery, Spaceframes, Tensile Fabric Architecture, Roof Waterproofing, Roof Insulation, Roofing Fasteners, Tools & Accessories for Roofing, Industrial Doors, Industrial Flooring, Software for Structural Steel / Roofing etc.

About Floor India

Floor India 2023 will be held concurrent to the 20th Edition of ROOF INDIA, India's only focused event on Flooring and Allied Industries. The event is dedicated for Industrial & Commercial Flooring Solutions along with Cleaning and Installation Technology

Conference

Open Seminar on 'Let's Talk Roofing' & 'Flooring Ideas'

DAY 1 | Thursday, 27, April 2023

10:30- 11:30 am

Registration

11:30-11:40 am

Welcome by Hyve India

11:40 - 12:00 pm

Short Break

12:00 am: 13:30pm

Opening Remarks

Technology Innovation and New Trends in the Roofing & Flooring Markets

Special Address:

Shri Aniruddha Nakhawa, Hon.Secretary – Builders Association of India

Special Address:

Jitesh Donga, Chief of Design- Mahindra Lifespace

Special Address:

Mahesh Bangad, Chairman - AESA

Special Address:

Sandeep Vaidya, VP Technical & Global Sales Support - United Group

Special Address:

Katja Bernert, Dipl.-Ing. Architect – AMA Architectural Membrane Association

13:30pm - 14: 30pm

Session 1

- **Pre-Engineered Steel Building**

Speaker: Nikhil Bhotra, Director – Epack Polymers Limited

Speaker: Jaideep Majumdar, Sr. GM Sales & BD Development- Epack Polymers Limited

- **Polycarbonate sheet and it's Uses.**

Speaker: Manish Koul , Country Head- Saraswati Plastotech India Pvt Ltd

- **Tensile Architecture**

Speaker: Thomass BONNEVILLE, Product Manager- Serge Ferrari

- **Sustainable Textile Building Envelopes.**

Speaker: Katja Bernert, Dipl.-Ing. Architect – Mehler Technologies

- **Green & Sustainable Architectural Solutions in Steel**

Speaker: Ranadeep Banerjee, Head - Sales (Lysaght West Region)- TATA Bluescope steel

Conference

14: 30pm – 15: 30pm

Session 2

- **Innovative Materials for Roof Restoration!**
Speaker: Ashok Chaturvedi, Consultant - Aerolam Insulations Pvt Ltd
- **Transforming the Steel Structures with Constructible and Connected Technology**
Speaker: Sunil Lidkar, National Business Manager (Steel) - Trimble Solutions India Pvt Ltd
- **Cool surface to Reduce Urban Heat Island Impacts**
Speaker: Brijesh Tiwari- Panache Greentech Solutions
- **Smart Roof Solutions**
Speaker: Kaushal Gupta, Director- Bansal Roofing Products Ltd
- **Building a Sustainable Future for the Roofing Market**
Speaker: Nidhi Pathak, Assistance Manager- Soprema

Closing Remarks & Thanks

DAY 2 | Friday, 28, April 2023

11:30-11:45am

**Welcome by Hyve India
Opening Remarks**

11:45-12:00pm

Short Break

12:00pm – 13:30pm **Session 1**

- **New Age Building Solutions**
Speaker: Amit Khaparde, National Sales Head- Everest Industries
Speaker: Kingspan Jindal Pvt. Ltd.
Speaker: Chandrajit Shah, Managing Director- Everest Composites Pvt Ltd
- **Roof Tiles: Why Roof tiles are the Most Reliable Roofing Solution today? How to Choose the best one for your Home?**
Speaker: Aanish Nigam Chief Marketing officer, KPG Roofing
- **Roof Insulation and Waterproofing with "TPO Membranes made in India"**
Speaker: Rajesh Sete, CEO- GreenShield Constrochem

Conference

13:30pm – 15:00pm Session 2

- **Expansion Joint Sealing System Using TPE base Tape.**
Speaker: Rahul Ugale, BD Manager – Pronil India
- **Good Practices in waterproofing**
Speaker: Viha Chitroda, Business Operations-
Maris Polymers India
- **Enhancing Performance of Metal Roof with Sustainable Waterproofing**
Speaker: Bhairav Prajapati, Product Specialist- Pidilite Industries Ltd
- **Roof Fasteners & Fixtures**
Speaker: Nipun Jain, COO- Ejoy Octagon Fastening systems Pvt.Ltd
Speaker: Dirk Homrighausen CEO- Ejoy Octagon Fastening systems Pvt.Ltd

DAY 3 | Saturday, 29, April 2023

11:30-11:45am Welcome by Hyve India Opening Remarks

11:45am- 13:00pm Session 1

- **Hardener, Densification and Abrasion Resistance**
Speaker: Ajay Singam, Director - Avcon Technics Pvt Ltd
- **A Look into the Future of Flooring Commercial and Outdoor Spaces**
Speaker: Abhay Dixit - Key Accounts Manager- United Group
- **Sustainable Construction**
Speaker: Prince Srivastava, Managing Director - Ekta Contech
- **Roof- Performance Matter**
Speaker: Yassar Nabeel Mohamed, Approvals Engineer-FM Approvals

13:00pm –14:30pm Followed by Industry Interaction & Business Meets

Vote of Thanks by Hyve India

Area of Specialization

Cross Linked Polyolefin Xlpe Foam & Self Adhesive Bopp Tapes And
Other Specialised Packaging Materials

Organisation Profile

Airmaster was established in the year 1987 in the UAE. As one of the leading manufacturers and pioneers in the field of Air distribution and Air Control products in the GCC and Indian sub-continent, we have always considered innovation as our key to success. We have lately diversified into the field of Thermal and Acoustic insulation. Airmaster Incloplast Private Ltd , our new state of the art manufacturing facility in Sri City India , manufactures high quality cross-linked polyolefin insulation for several industrial sectors based on international standards.

Airmaster XLPE insulation is chemically crosslinked Polyolefin foam. It is extremely fine closed cells foam with smooth skins on both sides. It is light in weight, flexible, soft in touch, strong, and tough in physical properties. It has excellent resistance to moisture, chemicals and can perform even in extreme temperatures. It typically offers high resilience and gets back to its original shape. All the above properties coupled with the advantage of being an environment friendly material make Airmaster XLPE a preferred thermal and acoustic insulation brand in the construction industry and several other industries where thermal insulation, sound and vibration control is critical.

APL Apollo: Steel-Tubing the Strongest Structural Foundation for the Global Infra

Innovation is the only way to cope with the changing constant of time. Stagnant water evaporates to leave a muddy land where all the structures would collapse and get buried in the sands of time. This is where the structural strength of innately revolutionary leaders like APL Apollo comes to the rescue of people devoted to nation-building. And from a foundational network of robustly built nations, skyrockets humankind's civilizational monument, standing tall, withering the seasonally shifting currents of weathering forces.

Established in 1986 by a visionary (Late) Sudesh Kumar Gupta, today, under the exemplary leadership of its Chairman, Mr Sanjay Gupta, APL Apollo has been steel-tubing the strongest structural foundation for the national and global infrastructure.

Innovation at APL Apollo is not a deliberate strategy. It is its inner strength which gets reflected in everything – its priorities, products, processes, and performance.

Sustainability matters

Mehler Texnologies develops new
VALMEX® TF 400 Eco F membrane
for façade cladding

Sustainability is a game changer
in today's construction.

Mehler Texnologies is well
advanced in turning sustainable
principles onto the next level
and is the first company offering
a membrane with a base fabric
made of 100% recycled PET
bottles for architectural appli-
cations.

It is a part of Mehler Texnologies'
contribution to reduce the global
CO₂ footprint.

Neo Thermal Insulation Creating eminent technology to drive efficient

Thermal Insulation in your Office, Home, Industry, School, etc. We provide the best and first-in 7-Layer Air Bubble Insulation Material especially manufactured with high-quality materials for providing world-class services to our.

Advantage Of Air Bubble Insulation

The foundation was laid by the NASA for helping their space project. It's used in space satellite astronaut's suits & dress due to low microns & lighter weight.

Air Bubble films are used in NASA's spacesuits to make them radiation resistant and keep astronauts warm, and in proximity (aluminized) suits are used by AR-FF fire fighters for protection from the high amount of heat released from fuel fires. Silvered emergency blankets are also used to conserve a shock victim's body heat. These reflective materials might also be used as part of industrial and commercial insulation (for example, insulated shipping containers.) Insulating blankets were also used as insulation in aircraft until safety concerns resulted in

their depreciation. In particular, it was found to be a major cause of the in-flight fire of Swissair Flight 111 on September 2, 1998.

Our Advantages

- Effective Cost Effective Cost Energy Efficient- To maintain Temperatures inside.
- Energy Efficient- To maintain Temperatures inside.
- Leak Proof & waterproof
- Acoustic Insulation
- Light Weight
- Flexible (in Irregular size & shape)
- Easy to install
- Dust & Fiber Free Insulation
- Chemically Resistant
- Reusable & Recyclable
- Anti-Oxygen
- Fire Retardant
- Humidity & Vapors Barriers
- Corrosion & Shrinkage
- Suitable for Each Industries

About Neo Thermal Insulation

We at Neo, are specialized in creating high performance and quality assured, India's first 7 layered air bubble thermal insulation.

Our 10+ year experience in Thermal and acoustic insulation. for our clientele includes Steel building, Metal Roof, Asbestos roof sheet, Under deck, Concrete roof, Colo storage/Room, Refrigerator containers, poultry farm, Reflective insulation, Pre-Engineered Buildings

Contact :

Neo Thermal Insulation (India) Pvt. Ltd.

insulation, Thermal Insulation, Live stock insulation, Building insulation.

Neo aims at innovating new methods to provide sustainable and efficient approaches for providing insulation from heat and radiations. Along with this, we stick to the concept of energy conservation, thus, we manufacture insulating material that reduces global warming.

Our Mission

At Neo, we produce high-quality 7 layer air bubble insulation material for our customers. We strive towards surpassing the international standards in manufacturing high-definition air bubble insulation material. Our company aims to establish an employee friendly environment to enhance the productivity. To make our planet greener and happier by utilizing effective heat radiation and heat transfer techniques.

Our Vision

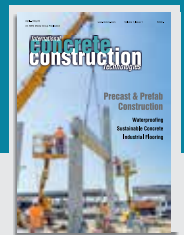

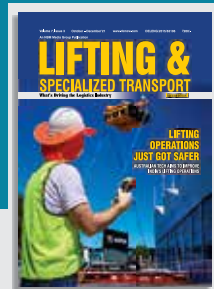

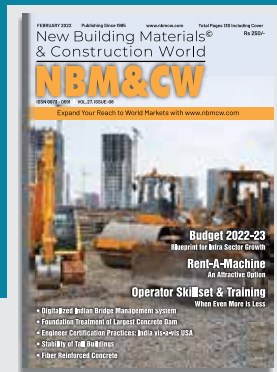

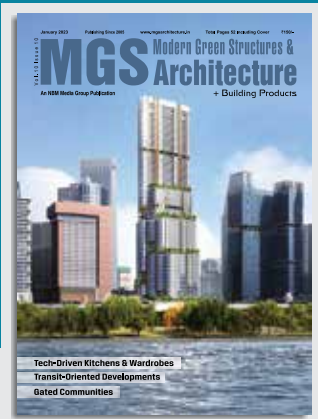

Through our expertise, innovation, R&D and technology instead of To be a part of top 10 companies in the world to manufacture best air bubble insulation for our potential client and to become the most trusted producer of insulation material.

Be The One To Start The Change-Go Greener And Cleaner Be a part of the change to make our earth greener and cleaner. Let's live in a world of past where everything was pure and safer, and preserve our natural resources together by installing air bubble insulation.
